Product Name :	**Product Code :**
Diesel Engine Model, 2-Stroke, Direct Injection	TechnicalLab0482

Description :

Diesel Engine Model, 2-Stroke, Direct Injection

This product is a realistic model of a 2-stroke diesel engine. This unit is mounted on a base plate and is manually operated to allow you to:

• Demonstrate the purpose of all components, which have been sectioned for training purposes.

• Point directly to the inside of the injection pump, injector, volumetric compressor, cooling system, and other key components.

• Simulate the expansion phase of the engine with an illuminating light bulb.

• Control the speed of the engine with the use of a crank handle
