Product Name :	**Product Code :**
Moment of Inertia Table Setup for Physics Electric Labs	E 06

Description :

Micro controller based Measurement Unit. Engraved and ruled inertia discs. Three auxiliary bodies. Moment of Inertia Table Setup:

Micro controller based Measurement Unit.

Engraved

and ruled inertia discs.

Three auxiliary bodies.

Moment of Inertia Table Setup dramatically represents how moment of inertia posses in any body. Moment of Inertia plays an important role in our daily life. Setup familiarizes with the concept of Moment of Inertia along with rotational motion of object. Setup explains how it is affected by mass and distance from the axis of rotation. Our setup allows to determine the moment of inertia of various objects. For time measurement of rotation, measurement unit is included with manual and automatic mode.

Micro controller based Measurement Unit.

Engraved and ruled inertia discs.

Inverted U- shaped metal body with chuck screw connection.

Measurement unit gives instant result of moment of inertia.

Three auxiliary bodies
