

Product Name :
ADC/DAC Module for Embedded System Trainers Teaching Labs

Product Code :
EMB-TR-11

Description :

ADC/DAC Module - ADC/DAC Module MC02 enables the students and practicing engineers to gain invaluable practical experience on the principles and applications of microcontroller. The object is to have a clear understanding of how analog inputs are converted into digital through Microcontrollers and vice versa. ADC/DAC module, MC02 has inputs and outputs terminals for connection to external real world applications.

8 Input 8 channel ADC interface

DAC interface

PC based programming

Expansion connectors for plug in with Microcontroller unit and prototyping area

Every pin is marked in order to make the work easier

Input/Output & test points provided on board

Exhaustive Learning Material

Naugra Export
