

Product Name :
Advanced Analog Circuits Development Platform Trainer for Electronics
Teaching Labs

Product Code :
BEL-TR-34

Description :

Advanced Analog Circuits Development Platform Trainer - Advanced Analog Circuits Development Platform - TechBooks are compact and user friendly learning platforms to provide a modern, portable, comprehensive and practical way to learn Technology. Each TechBook is provided with detailed Multimedia learning material which covers basic theory, step by step procedure to conduct the experiment and other useful information. Scientec 2612A Advanced Analog Circuits Development Platform is used to perform analog circuit experiments. It is very useful in analog laboratories for performing analog experiments in colleges and universities. It is also useful in testing and making projects related to Analog electronics.

Self Contained and Easy to Operate

Functional Blocks indicated on board mimic

On board DC and AC Power Supply

On board Function Generator

On board Continuity Tester

On board Toggle Switches and Potentiometers

Solder less Breadboard

On Board Voltage/ Current/Frequency Measurement

PC Interface
