

Product Name :
Aircraft Engine, Lycoming Flat-6

Product Code :
TechnicalLab0500

Description :

Aircraft Engine, Lycoming Flat-6

This cut-away aircraft engine runs at a reduced speed to permit students to effectively learn and observe the internal operation of the various mechanical parts. It is carefully sectioned for training purposes and professionally painted with different colors. The instructor and student can easily differentiate the various parts, cross-sections, lubricating circuits, fuel system, and cooling system.

SPECIFICATIONS:

- Lycoming Flat-6 aircraft engine
- Air cooled
- Gear distribution with camshaft in the crankcase
- Double ignition with 2 magnetos (two spark plugs per cylinder)
- Single barrel carburetor
- Operates electrically at 120V
- Mounted on stand with wheels
