

Product Name :
Automotive Electrical Trainer, Panel Type

Product Code :
AUTO-EN048

Description :

Automotive Electrical Trainer, Panel Type for engineering schools

This trainer provides a realistic simulation of automotive electrical systems with real time results and modular panel layout. The system schematic panel shows the wiring of an automotive electrical circuit complete with test points available for measurement by test lamps, multimeter and oscilloscope. Realistic troubleshooting exercises are provided with error answer feedback featuring electrical test points and interactive fault
