

Product Name :
Batch Solvent Extraction and Desolventising Unit

Product Code :
ChemicalMT-10008

Description :

Self-contained, floor mounted pilot unit for solvent extraction followed by desolventising, letting a class run a small version of the industrial process on batches of 25 kg. Extraction and desolventising share a single vessel, and the miscella tank, tops condenser and solvent/water recovery tank complete the circuit. Construction is flameproof throughout, and a wide range of solid-liquid extractions can be processed with low disposal rates.
