Product Name:

Centrifugal Blower Test Rig

Product Code:

Technical0035

Description:

Centrifugal Blower Test Rig

Technical Specification:

Centrifugal Blower Test Rig

The apparatus consists of a spiral casing, which houses an impeller.

Impeller is driven by a variable speed D.C. motor. Three, interchangeable

impellers, viz. Radial forward and Backward curved vanes are provided with

the unit. Digital indicators are provided for speed of impeller. A venture

provided measures the discharge. Thus students can evaluate the

performance of different impellers at various speeds.

SPECIFICATIONS:

Blower - Spiral casing with three interchangeable impellers viz. forward, backward and radial vanes.

Drive Motor-1 HP DC motor, 3000 RPM with Dimmer control to vary the speed from 300 to 3000 RPM.

Phone: +91-0171-2643080, 2601773 Email: sales@naugraexport.com

Digital Speed indicator for speed measurement.

Ventura with water manometer to measure air flow.

Water manometer to measure discharge pressure.

Discharge pipe with flow control valve.
