

Product Name : Core Cutting & Drilling Machine (Motorised) For Testing Lab for Rock Testing Lab	Product Code : ROKQ-02
	
Description : Core Cutting & Drilling Machine (Motorised) For Testing Lab for Rock Testing Lab - Core Cutting & Drilling Machine (Motorised) - The Core Drill is the industry standard, designed for concrete, reinforced concrete, Asphalt and brick in construction. The core drill includes drill motor, base, column, carriage, control panel, friction clutch, motor mount plate, rack, gear-box, out setting water swivel seal, hydraulic system. Optional parts include water pump, rod for ceiling jack, water container, adapters. Rated Voltage: ~220 V / 50Hz Power Input: 2800W No-Load Speed: 840rpm Max. bit diameter: 50mm/100mm/150mm Shaft Male: 1 1/4"UNC Features : <ol style="list-style-type: none">1. Compact size with light weight as well as safety in operation2. The drills are equipped with a friction clutch as well as over load current protection for protecting motor3. High-strength gear to keep the drill working long hours constantly4. Excellent speed, smooth and stability during drilling5. Out setting water swivel seal facilitate making replacement when the seal worn out6. Bits capacity: 25mm Dia - 150mm Dia
