

Product Name :
De Mattia Flex-Fatigue Mould India

Product Code :
NG651

Description :

De Mattia Flex-Fatigue Mould India

Technical Specification :

- The molds are available with single or multiple cavities, hardened or polished stainless steel.
- Every type of sample preparation for any kind of material can be covered with more than 500 different types of standard curing mould designs, over 20 different material types, and more than 20 different surface finishes and coatings.
- Mould and cover plates are exclusively made from high strength stainless steel, withstanding even highly aggressive compounds and materials.
- The fabrication of every mould plate includes tempering to relieve all strains from the material, coplanar grinding for highest parallelism, machining with a dimensional precision of up to 0.002 mm, polishing, final inspection and quality control.
- Cavity: 5
- Precision: 0.002mm
- Outer dimensions: 346+(120mm Griffe) x 206 x 17+17mm Deckel

- Sample dimensions: 25 x 150 x 6.3 mm`
