

Product Name :
DESSICATOR (VACCUM) for Science Lab

Product Code :
NPLW-0031

Description :

This Desiccators are made of Polypropylene and Polycarbonate. These autoclavable vaccum desiccators can hold vaccum upto 740mm of Hg for 24 hrs. without any greasing.

Technical Specification :

The top dome, moulded in rigid and transparent Polycarbonate, give a crystal clear view of the deciccant placed inside. The Knurled knob on the top provides easy handling of the dome. The lower part is made of Polypropylene. An internal groove is provided on the flange to hold a silicon rubber O-Ring.

The Polypropylene stopcock is fitted with a self lubricating PTEE plug. This plug works three way i.e. vaccum creation, shutting off & vaccum releasing. Each Desiccator is provided with a thick perforated Polypropylene disc with a big hole in the centre for easy lifting. The tiny holes in the disc provide air troughs & support to the dishes.

However porecelain discs are advisable in case of incandescent crucibles.

Material : Polypropylene / Polycarbonate

Size: 150mm
200mm 250mm 300mm

Flange O.D: 171mm
232mm 276mm 340mm

I.D.:
150mm 199mm 240mm 300mm
