

Product Name :
Diesel Engine Model, 2-Stroke, Direct Injection

Product Code :
TechnicalLab0482

Description :

Diesel Engine Model, 2-Stroke, Direct Injection

This product is a realistic model of a 2-stroke diesel engine. This unit is mounted on a base plate and is manually operated to allow you to:

- Demonstrate the purpose of all components, which have been sectioned for training purposes.
- Point directly to the inside of the injection pump, injector, volumetric compressor, cooling system, and other key components.
- Simulate the expansion phase of the engine with an illuminating light bulb.
- Control the speed of the engine with the use of a crank handle
