Product Name :	**Product Code :**
Digital IC Trainer for Vocational Training and Didactic Labs	ETKN-0002

Description :

Equipment for Education, Engineering and Vocational Training - Digital IC Trainer (TTL) has been designed for verification of the truth table of logic gates and address etc.

Technical Specification :

Students can be trained about the digital ICs by using this board. The fundamentals of the digital ICs can easily be understood by performing required experiments for verification of truth table of logic gates.
Quite large area of the bread board has been provided on the panel for ICs . Students can make the circuits easily on the bread board with the help of other accessories which have been provided on the panel.
Practical experience on this board carries great educative value for Science and Engineering Students.
