

Product Name :
Distributorless Ignition System Trainer for engineering schools

Product Code :
AUTO-EN050

Description :

Distributorless Ignition System Trainer, technical teaching equipment for engineering

- Crank sensor pick-up disc operated via a variable speed control.
- Inlet manifold vacuum simulated by a syringe.
- With the use of timing light, advance and retard can be observed on the graduated scale by the timing mark.
- Variable spark plug gap adjustment, viewed through a clear Perspex cover.
- Six fault insertion comprising of high resistance and open circuit faults.
- Rotating parts covered by mesh guards.
- Turret case mounted on a metal base.
- Powder coated paint finish.

Other Specifications:

- Supply Voltage: 12V DC
- Dimensions (WxLxH): 360 x 380 x 430 mm
- Weight: 11.5 kg
