

Product Name : Embedded Software Design Platform for VLSI Design Training Systems Teaching Labs	Product Code : VLS-TR-13
--	------------------------------------

Description :

Embedded Software Design Platform XPO Series - Aesthetically designed injection moulded enclosure. Intel 200MHz PXA255 RISC processor with 32MB Flash Memory and 64MB SDRAM. Xscale architecture suitable for mobile computing technology (HDD) and facilitates Kernel space programming as compared to user space programming available on competing mode User's/Student's (Application programming Guide) Guide provided with emphasis on embedded Linux C programming & OS architecture. Supported system programming by interfacing PC to Simputer kit through serial port.
