

Product Name :
Energy Band Gap in Semiconductor Diode for Vocational Training and Didactic Labs

Product Code :
ETKN-0022

Description :

Equipment for Education, Engineering and Vocational Training - Experimental Training Board has been designed specifically for Determination of Energy Band Gap in Semiconductor (P-N Junction Diode) using Temperature dependent of reverse saturation current.

Technical Specification :

The board is absolutely self contained and requires no other apparatus.
Practical experience on this board carries great educative value for Science and Engineering Students

OBJECT

- * Draw characteristics of a P-N junction Diode for reverse saturation current & temperature
- * To determine the Energy Band Gap in a P-N Junction Diode
