

Product Name :
Equopen Swiss Portable Hardness Tester For Testing Lab for NDT
Metal Testers Lab

Product Code :
NANM-M3

Description :

Equopen Swiss Portable Hardness Tester for NDT Metal Testers - Simple one-handed operation. Fast accurate hardness test. Compact, lightweight and portable. Self contained no cables. Displays directly in Rockwell C scale
Application Range :

1. Ideal for consultants, machinists, quality and production personnel with periodic requirements for quick and easy hardness measurements in HRC
2. Measures 20 - 70 HRC, ± 1 HRC
3. Parts weighing less than 5 kg (11 lbs.) with thin walls must be set on a solid support to prevent vibrations
4. Parts weighing less than 2 kg (4.5 lbs.) must be coupled to a solid support using coupling paste
5. Minimum surface layer thickness: 0.7 mm
6. Minimum test radius of surface curvature: $R = 30$ mm (1.18 in.)
7. Steel and cast steel, cold work tool steel, stainless steel and hightemperature resistant steel
