

Product Name :
Forced Vortex Apparatus for engineering schools

Product Code :
Fluid Mechanics0012

Description :

Forced Vortex Apparatus for engineering schools

Technical Specification :

Forced Vortex Apparatus, technical teaching equipment for engineering

Very easy to operate, install and maintain, the offered **Forced Vortex Apparatus** is highly user friendly in nature. Widely used for the purpose of providing a smooth rotational flow of liquid, the offered product is asked for in the market. Manufactured by us in compliance with the set industrial norms and guidelines and is provided to clients at a market leading rate, the offered product is one of the best that is available.

Specification:

- Power supply: Single Phase, 220 volts, 50 Hz, 5 Amp with earth
- Water Supply

- Drain
