

Product Name :
Gas Engine, 4 Cylinder, with Camshaft in the Crankcase

Product Code :
TechnicalLab0267

Description :

Gas Engine, 4 Cylinder, with Camshaft in the Crankcase

This product is a cut-away of a 4 cylinder gas engine with a camshaft in the crankcase. It has been carefully sectioned for training purposes, professionally painted with different colors to better differentiate the various parts, cross-sections, lubricating circuits, fuel system, cooling system, and other key components. Many parts have been chromium plated and galvanized for a longer life. It is operated manually by hand crank, and it is mounted on a stand with wheels.

SPECIFICATIONS:

- Displacement: 1,200/2,000cc approximately
- Camshaft in crankcase, toothed chain
- Overhead valves in line
- Coil ignition
- Mechanical fuel pump
- Dry single-plate clutch
- Operated manually by hand crank
- Mounted on stand with wheels
