Product Name: Gas Engine, 4 Cylinder, with Camshaft in the Crankcase	Product Code : TechnicalLab0267
Description :	
Gas Engine, 4 Cylinder, with Camshaft in the Crankcase	
This product is a cut-away of a 4 cylinder gas engine with a camshaft in the crankcase. It has been carefully sectioned for training purposes, professionally painted with different colors to better differentiate the various parts, cross-sections, lubricating circuits, fuel system, cooling system, and other key components. Many parts have been chromium plated and galvanized for a longer life. It is operated manually by hand crank, and it is mounted on a stand with wheels.	
SPECIFICATIONS:	
Displacement: 1,200/2,000cc approximately	
Camshaft in crankcase, toothed chain	
Overhead valves in line	
Coil ignition	
Mechanical fuel pump	
Dry single-plate clutch	
Operated manually by hand crank     Mounted on stand with wheels	
Mounted on stand with wheels
