

Product Name :
Generator Operation Sectioned Trainerfor engineering schools

Product Code :
AUTO-EN053

Description :

Generator Operation Sectioned Trainer, technical teaching equipment for engineering

The Labtech Motor-Generator System is an integrated system for in-depth studies on Motor-Generator theory and working principles. The system is mounted on its own base plate with an upright control panel and the combination is connected via a flexible coupling. The control panel includes a volt meter, ampere meter, and all wiring connections brought out to 4mm terminals. Operation and experiment manuals are provided in English.

Technical Specification :

Generator Operation Sectioned Trainer
