

Product Name :
Heavy-duty Hydropneumatic Braking System Panel

Product Code :
TechnicalLab0460

Description :

Heavy-duty Hydropneumatic Braking System Panel

This trainer is a hydro-pneumatic braking system commonly found in heavy-duty trucks (tractor-trailer). It is connected to a wall mounted panel and easily allows you to:

- Conveniently educate about all of the braking system components, listed below.
- Teach and differentiate the particular parts of the system with the aid of color-coded rubber pipes to easily identify the various circuits.
- Effortlessly use and display this model because of its compact and inclusive design.

SPECIFICATIONS:

- Air compressor
- Triplex Marelli distributor with adjusting and control unit
- Pressure brake booster
- Tractor-trailer coupling joint
- Hydraulic control braking element
- Mechanical and air control braking element for parking braking

- Servo-distributor valve for the trailer
- Four air reservoirs (three for the tractor).
