

Product Name :

HPLC Column Oven For Testing Lab for Gas Chromatography Lab

Product Code :

GASA-A001

**Description :**

HPLC Column Oven for Gas Chromatography - HPLC Column Ovens are available which utilize the proprietary radiation technology to achieve temperature accuracy of $\pm 0.1^{\circ}\text{C}$ with maximum temperature attainable up to 140°C . The HPLC Column Oven is capable to handle up to 4 columns at a time. These High end HPLC column ovens can be controlled through RS 232C loop or through RS 485 loop over distances of upto 900 meters. These systems are equipped with a powerful blower which helps maintain a uniform temperature profile in the oven and minimizes gradient. Low cost systems with 1°C accuracy are also available
