

Product Name :
Hydraulic Dual Circuit Brake System with Fault Trainer for engineering schools

Product Code :
AUTO-EN011

Description :

Hydraulic Dual Circuit Brake System with Fault Trainer, technical teaching equipment for engineering

- To show the operation of the hydraulic brake pump.

â—• To demonstrate the function of the servo unit.

â—• To display the transformation of the brake pedal movement into a movement of the brake cylinder in the disc and the drum brake at the wheels.

â—• To show the function of the hand brake at the rear wheels.

â—• To present the inner part of the drum brake and the function of the drum brake.

â—• To explain the safety of two circuit braking system
