| Hydraulic Ram Test Rig, technical teaching equipment for engineering | ng |
| Owing to our expertise and the assistance of dedicated workforce, we have | ve heen able to offer ontimum |
| quality Hydraulic Ram Test Rig | ve been able to oner optimali |
| at an affordable market price. These products are precisely | |
| manufactured under strict supervision using best quality metal. Known | |
| for unmatched quality, high efficiency and hassle-free operations, these products are highly demanded among the industrial clients. | |

| Ram is used for pumping small quantity of water at high head, wh | |
| large quantity of water at small head is available. It operates on the | e |
| principle that if flowing water is suddenly brought to rest in a long pipe, a phenomena known as water hammer occurs, wherein a pr | ressure wave |
| travels along the pipe. This principle is used in the Hydraulic Ram | |
| pump water. The set-up consists of a box incorporating pulse and | |
| non-return valves and a supply reservoir on a stand which is fed b | |
| overhead tank. An air vessel above the valve chamber smoothes fluctuations from the Ram delivery. Different pressure may be app | - - |
| the pulse valve to change the closing pressure and hence the ope | |
| characteristic. | 3 |

- To find out discharge of useful water and waste water
- To find out the efficiency of the Hydraulic ram

Utilities required:

- Electric supply
- Provide 230 +/- 10 VAC, 50 Hz, single phase electric supply with proper earthing. (Neutral Earth voltage less than 5 VAC.),
- 5A, three pin socket with switch for pump.
- Water supply
- Tap water connection "BSP
- Distilled water @ 250 liters (optional)

Technical Specifications:

- Ram: Supply Head 1.0 m, Delivery Head 4 m (Max.)
- Water Circulation: FHP Pump, Crompton make.
- Sump Tank: Capacity 140 Ltrs. (approx.)
- Overhead Tank: Capacity 50 Ltrs. (approx.)
- · Air Vessel: Suitable Capacity
- Flow Measurement: Using Measuring Tank & Electronic Stop Watch for waste water and for useful water
- Pressure Gauge: Bourdon type
- Instruction Manual: An ENGLISH instruction manual will be provided along with the Apparatus

Technical Specification:

Hydraulic Ram Test Rig
