

**Product Name :**  
Inverse Square Law Demonstrator for Physics Electric Labs

**Product Code :**  
E 04

**Description :**

Sliding stand with precise measurement. Source with height adjustment. Inverse Square Law Demonstrator  
Sliding stand with precise measurement. Source with

height adjustment.

Inverse Square Law Demonstrator is an Optical Setup that describes the variation of light intensity with distance. The inverse Square Law states that the illumination of a surface by a point source is inversely proportional to the square of the distance between the source and surface. Inverse Square Law Demonstrator consists of Optics Bench, Light Source, Photo detector for detecting the intensity.

Sliding stand with precise measurement

Light Source with height adjustment

One fixed stand and sliding stand is provided

Photo detector with height adjustable facility
