

<b>Product Name :</b> Klystron Microwave Test Bench for Vocational Training and Didactic Labs	<b>Product Code :</b> MICRO-BH001
--	--------------------------------------

**Description :**

Klystron Microwave Test Bench - The Microwave Test Benches are precision made microwave systems, which use standard type rectangular wave-guide components to illustrate the essential elements of this field for study. The equipment consist of :

- A selection of wave-guide components
- The power supply for the microwave source
- A detector
- A meter, which monitors the detector output
- Wall Chart
- Microwave Components Chart

These Training Benches are completely self-contained & provide the means to allow students to carry out practical work at extremely low cost. A comprehensive manual containing extensive microwave theory and a progressive series of assignments is supplied with the Trainer.
