**Product Name:** 

Low Current Sensor

Product Code: DataNAS-10009

## **Description:**

Low Current Sensor

## **Technical Specification:**

This is a small but very effective Linear current sensor module.

This module is good for max 5A current measurement.

AC or DC voltage at its input and its output varies linearly with sensed current.

This module is designed hall effect based current sensor chip.

Phone: +91-0171-2643080, 2601773 Email: sales@naugraexport.com

lts	output	is	analog	voltage.

Low Current Sensor outputs an analog voltage that varies linearly with sensed current.
