

Product Name :
Metacentric apparatus for engineering schools

Product Code :
Fluid Mechanics008

Description :

Metacentric apparatus for engineering schools

Technical Specification :

Metacentric apparatus, technical teaching equipment for engineering

Our organization holds specialization in the manufacturing, trading and exporting of high quality **Metacentric apparatus**.

This apparatus is manufactured under strict supervision, using finest quality raw materials that have been sourced from authentic vendors. Offered apparatus is appreciated around the globe for accurate measurement, simple functionality and longer function life.

Experiments:

- Determination of the metacentric height and position of the metacentric height with angle of heel of ship model

Utilities Required:

- Electric supply 0.5 kW, 220V AC, Single Phase
- Water supply Tap water connection " BSP Distilled water @ 60 liters (optional)
- Floor Area with Drain facility

Technical Specifications:

- Size:
300x300 mm (approx.) with a Horizontal Guide Bar for aliding weight and Removable Strips, Graduated arc with Pointer with moveable hanger And set of weights
- Water Tank Size: 550 x 500x 400 mm (approx.)
- Front Window of Tank: Made of Glass/Perspex
- Instruction Manual: An english instruction manual will be provided along with the Apparatus
- Tanks Material: Stainless Steel
