

Product Name :
Mitsubishi Gas Engine With Direct Injection - Manual

Product Code :
TechnicalLab0304

Description :

Mitsubishi Gas Engine With Direct Injection - Manual

This product is a cut-away of a Mitsubishi gas engine with direct injection. Gas engines having direct injection (fuel inlet in the combustion chamber and not in the air suction duct), have high performances and are designed to comply with the most severe anti-pollution regulations. This model is operated manually by means of a crank handle. This cutaway model is carefully sectioned for training purposes and are professionally painted with different colors to better differentiate the various parts, cross-sections, lubricating circuits, fuel system, cooling system etc.

SPECIFICATIONS:

- 4 in-line cylinders
- Displacement: 1400-2000 cc
- DOHC twin overhead camshaft
- Multi-point electronic injection
- 4 valves per cylinder
- Water cooling
- 12V alternator
- Operated manually by hand crank
- Mounted on a stand with wheels
