Product Name : Mobile Communication Trainer

Product Code : Lab Trainers0020

Description:

Mobile Communication Trainer

We are Leading Supplier of Mobile Communication Trainer in India. We also bulk supply Mobile Communication Trainer for laboratory tensers.

Technical Specifications :

Display : 16 character x 2 lines keyboard : 4 lines x 4 columns DTMF (Dual Tone multi Frequency) : Telephone tone generator and 2 Band filter decoder DSP IC : it generates DTMF signal it uses the keyboard for data input it shows the number selected on the display PIC IC manages : Display, Keyboard and Calls Built in loudspeaker with adjustable power amplifier Selections : Dialing, incoming Call answer and Radio channel Channel coding : PCM (Pulse Code Modulation) 8 bit word : 13 bit linear to pseudo log 8 bits ADC (and DAC) by data companding

8 KHz sampling frequency baud rate of 64 kb/s TDMA Frame : 4 user time slots, 1 synchronism time slot, Time slot display Smoothing Filter UHF Transmitter and Receiver : 4 selectable channels by PLL circuit RF channel frequency : 2400 to 2481 MHz In/Out Impedance : 50â,,¦ Transmitter Output RF Power : ?10 dBm Channel noise simulator Channel Attenuation simulator 2 stylus Antennas Compact and strong metal box including : lift able cover with block diagram Electronic components and power supply Fault simulator : protected with key locked cover and including 10 faults insertable by switches Cable and Microphon
