

Product Name :

Model of Locomotive Boiler - Heat Transfer Training Systems and Heat Lab Engine Trainers for engineering schools

Product Code :

NEMHTM04

Description :

Model of Locomotive Boiler, technical teaching equipment for engineering - Heat Transfer Training Systems and Heat Lab Engine Trainers

Technical Specification :

This model is specially designed to understand the working of a locomotive steam boiler. The model consists of a cylindrical tank, the boiler, with a star logo on the front. The boiler is provided with a door and gages. The attached boiler allows the trainee to see the gases after they pass through the boiler. The boiler is the engine box with a clear window about the boiler pipe. The model is constructed with a strong, durable, high quality material and is supplied with controls, steam coils, safety valves, check valves, steam regulator valve and steam gauges.
