

Product Name :

Motor Cultivator Cut-Away, Single-Cylinder Engine

Product Code :

TechnicalLab0507

Description :**Motor Cultivator Cut-Away, Single-Cylinder Engine**

The cut-away model represents a modern Motor Cultivator with a gas-powered single-cylinder, air-cooled 6/10 hp engine. It has been carefully sectioned for training purposes, professionally painted with different colors to better differentiate the various parts, cross-sections, lubricating circuits, fuel system, cooling system, and other key components. Many parts have been chromium plated and galvanized for a longer life. The unit operates electrically and requires a 120 volt power source. It runs at a reduced speed to allow students to easily understand and observe the operation of the various mechanical parts.

SPECIFICATIONS:

- 4 stroke, single cylinder gas engine
- Power: 6 Kw
- Recoil starter
- Dry clutch with manual control
- Gearbox MTC 3+2
- Reverse command by lever
- PTO
- Adjustable handlebars
- Motor-stop safety device
