

Product Name :

Motorcycle Engine Model, 2-Stroke, with Carburetor

Product Code :

TechnicalLab0383

Description :

Motorcycle Engine Model, 2-Stroke, with Carburetor

This product is an accurate cut-away of a 2 stroke gas motorcycle engine features a sectioned carburetor, ignition, and other key components. The model is operated manually by hand crank and the suction-exhaust-transfer lights are highlighted to make it easier to learn the cycles.

This product has been carefully sectioned for training purposes, professionally painted with different colors to better differentiate the various parts, cross-sections, lubricating circuits, fuel system, cooling system, and other key components. Many parts have been chromium plated and galvanized for a longer life.

SPECIFICATIONS:

- Piston displacement: 48cc
- Air cooled
- Points style magnet flywheel ignition
- Box carburetor
- Operated manually by hand crank
- Mounted on base
