

Product Name :
Naugra Domestic Electrical Installation System Trainer

Product Code :
DOME-0001

Description :

Naugra Domestic Electrical Installation System Trainer

Technical Specification :

Domestic Electrical Installation System Training Kit has been created for learning of installation of the electrical equipment and electrical control. The individual units of an experimental set-up are connected via 4-mm. safety sockets which are arranged in large, synoptically graphical symbols or current flow diagrams. Due to the vertical arrangement of the experimental panels, the experimental set-up can be seen from a far distance and can be adapted step by step to the course of the lessons or lectures.

- Commonly used electrical testing measurement appliance and error analysis
- Measurement method for reduced the error and the measured the range expansion
- Characteristic of mapping the voltage-current and measured the external power source
- Typical electrical signal
- Characteristic of rotational/gyrator
- Fluorescent COS enhancement

- Transformer Application
