

Product Name :
OPTO Electronic Devices Characteristics for Vocational Training and Didactic Labs

Product Code :
ETKN-0009

Description :

Equipment for Education, Engineering and Vocational Training - Experimental Training Board has been designed specifically to study the characteristics of Opto Electronic Devices.

Technical Specification :

Different experiments have been included in this Opto Electronic Devices characteristics board in order that a wide range of topics on Opto Electronics Devices Characteristics be covered in a short span of time. All the circuits for obtaining the characteristics of various devices can be easily assembled on this versatile training board itself. Practical experience on this board carries great educative value for Science and Engineering Students.

OBJECT

To study the characteristics of the following OPTO electronic devices:

1. Light Emitting Diode (LED)
2. Photo Diode
3. Photo Transistor
4. Light Dependent Resistor (L.D.R.)
5. Photo Voltaic Cell
6. Optocoupler
