Product Name :	**Product Code :**
PN Sequence Generator Trainer for Communication Teaching Labs	COM-TR-27

Description :

PN Sequence Generator - PN Sequence Generator -PN Sequence Generator demonstrates the basic scheme used to transmit an information signal. It covers very basic concepts like how to generate the PN sequence which can be used to send data in a secure manner. Output port provides the facility to observe the output signals in terms of pulses which is nothing but the PN sequence for different combinations. On board four clock of different frequencies (2, 4, 0.16 KHz) can be used to generate PN sequences.

Four selectable clock frequencies

Six Selectable data sequence

External clock upto 1 MHz

Functional blocks indicated on board mimic
