

Product Name :
Power Steering with Re-Circulating Ball System

Product Code :
TechnicalLab0324

Description :

Power Steering with Re-Circulating Ball System

This product is a cut-away of a segmental steering unit. The cut-away is mounted on a base.

This cut-away is carefully sectioned for training purposes and professionally painted with different colors to differentiate the various parts and cross sections. Many parts have been chromium plated and galvanized for a longer life.

SPECIFICATIONS:

- Ball type steering box
- Hydraulic vane pump
- Oil tank with relevant filter
- Connecting pipes
- Mounted on a base
- Operated manually
