

Product Name :
Rectifier Trainer for Electronics Teaching Labs

Product Code :
BEL-TR-05

Description :

Rectifier Trainer - Rectifier Trainer - The Rectifier Trainer NV6503 is a demanding training system for the laboratories. It is useful in understanding the basic concepts of a DC power supply. This trainer describes the Transformer, Rectifiers and Filter. It is provided with two types of rectifiers :

1. Half-wave Rectifier
2. Full-wave Rectifier (Center tapped and Bridge Rectifier)

The training system is designed in such a way that for performing any experiment students have to connect the links by patch cords, so it is very helpful for students to learn the inputs and outputs of different sections of any power supply circuit.

Real time appearance of components

Test points are provided in different sections of power supply

Designed by considering all the safety standards

Provided with a briefly described manual

Low cost trainer including many experiments
