

Product Name :
SCR Characteristics for Vocational Training and Didactic Labs

Product Code :
ETKN-0024

Description :

Equipment for Education, Engineering and Vocational Training - Experimental Training Board has been designed specifically to study the Silicon controlled Rectifier phase firing and D.C. control characteristics.

Technical Specification :

It is a training aid for advance studies in control circuits. Practical experience on this board carries great educative value for Science and Engineering Students.

OBJECT

- * To study the D.C. gate control characteristics (firing characteristics) of a SCR
- * To study and plot the anode current characteristics of a SCR
- * To measure the holding current of a SCR
- * To study the plot the phase firing characteristics of a SCR
