

Product Name :
Selected Quality Control Tests for Asphalt Binder

Product Code :
NCC0044

Description :

Selected Quality Control Tests for Asphalt Binder

Technical Specification :

Objectives:

The purpose of the experiment is to familiarize the student with such tests and their application in construction specifications as well as to give him a first-hand “feel” for the characteristics of these materials. Students will be divided into groups. Each team will perform following tests on asphalt cement samples as assigned by the instructor:

Penetration

Flash point (open cup)

Rotational viscosity
