

Product Name :
Semiconductor Diode Characteristics for Vocational Training and Didactic Labs

Product Code :
ETKN-0020

Description :

Equipment for Education, Engineering and Vocational Training - Experimental Training Board has been designed specifically for plotting Characteristics of Ge & Si Semiconductor Diodes.

Technical Specification :

The board is absolutely self contained and requires no other apparatus.
Practical experience on this board carries great educative value for Science and Engineering Students.

OBJECT

- * Study/ Plot Forward & Reverse Bias characteristics of (Ge & Si) semiconductor Diodes
- * Determine Static & Dynamic resistances of Forward Biased p-n junction of given diodes
