

Product Name :
Shaking Machine for Flasks

Product Code :
NAAY-M62

Description :

Shaking Machine for Flasks WITH AC / DC MOTOR: Useful for uniform mixing by circular motion in a horizontal plane with a circuit diameter of about 25 mm. Used extensively in tissue culture work, aeration of fermentation and other chemical mixing procedures. The driving mechanism is enclosed in a mild steel sheet cabinet beautifully painted. The motor used is induction type split phase and has a variable pitch pulley system with V belt drive, 150 to 250 oscillations approx. Optionally the shaker can be fitted with DC Motor with electronic speed regulator in place of variable pitch pulley system. The DC Motor will ensure continuous work and precise speed control. The shaking speed will be 50-250 RPM approx. The top platform have neoprene rubber discs to hold conical flask in between them.

OPTIONAL FITTINGS:

Automatic Electric Timer 0-60 minute for 24"x24", 36"x36" Shakers only.
