

Product Name : Single Phase Ac Induction Motor for Electronics labs for Teaching Equipments Lab	Product Code : LABS-EDU-0042
	
Description :	
Single Phase Ac Induction Motor for Electronics labs	
<p>becoming common, the use of 1Phase AC Squirrel cage motor became very common & demand increased for motors with single phase power, as the current in single phase is a concern, hence motors upto 3Hp have been made In Single phase power with the same Induction design principle. These motors have a capacitor in its running winding this means the capacitor is always connected and active while the motor is running. This Model is the Industrial /Educational model suitable for demonstrating to students the complete know of the Basics, Components, Starting methods, Wear & Tear & Maintenance of these motors packaged in small rating. Students can make connections of their own with the help of the terminations provided for study of features viz Starting methods, Speed-Torque, Effect of Phase angle, Study of Cogging/Crawling, Effect of reduced voltage, Blocked rotor test</p>
