

Product Name :
Smart Mill 500

Product Code :
NE-CNC-LAT34

Description :

Smart Mill 500

Technical Specification :

Smart Mill 500.

It is a rigid & steady design in its class with high levels accuracy to achieve quality milling components. it is a Total Productivity Maintenance friendly designed Vertical Machining Center.

The machine concept of the Smart mill series convinces by compact design, High rigidity through box structured base & column design with highest now brings to you the smart mill series of VMCs with features such as 8,000 rpm spindle with CTS, tool magazine 20 tools with double gripper ATC, side chip conveyor with built in coolant system, high rapid traverses and high-tech controls. Various options make this model a flexible means of production. Sustained quality performance due to high rigidity, and thermal stability. Operator's comfort due to environment-friendly working.

Control System

- Standard package
- Option :- FANUC 0i MC / 0i MF

Machine Standard Accessories

- Coolant tank, pump with chip tray
- Work light
- Pilot light
- Screw type chip conveyor
- Leveling bolts & pads
- Rigid Tapping
- Operating Manual
- Programmable Manual

Optional Accessories

- Spindle through coolant
- 4th axis CNC rotary table
- Spindle speed 10000 rpm
- Spindle motor 7/9 Kw
- Voltage stabilizer / Isolation Transformer
- Tooling / fixtures as per customer need
