

Product Name :
Smart Mill 600

Product Code :
NE-CNC-LAT35

Description :

Smart Mill 600

Technical Specification :

Smart Mill 600.

The machine concept of the Smart mill series convinces by compact design, High rigidity through box structured base & column design with highest now brings to you the smart mill series of VMCs with features such as 8,000 rpm spindle with CTS, tool magazine 20 tools with double gripper ATC, side chip conveyor with built in coolant system, high rapid traverses and high-tech controls. Various options make this model a flexible means of production. Sustained quality performance due to high rigidity, and thermal stability. Operator's comfort due to environment-friendly working.

Control System

- Standard package
- Option :- FANUC 0i MC 0i MF

Machine Standard Features

- AC digital spindle drive
- AC digital servo drive for all axes
- Linear motion guide ways for X, Y and Z
- Automatic tool change
- Coolant system
- Centralised and programmable lubrication
- Quality electrical devices with air conditioned panel
- Controlled temperature, humidity and dust free electronics

Machine Optional Features

- 4th axis
- Tail stock for 4th axis
- Programmable 4th axis
- Chip conveyor
- Auto door
- Renishaw probe
- Tooled up machine to meet customer need
- HSK spindle
- High pressure coolant
- Any other CNC control system
- 3D software
