

Product Name :
Soxhlet Apparatus India

Product Code :
NG363

Description :

Soxhlet Apparatus India

Technical Specification :

- Solvent Extraction Systems are suitable for the separation of a substance or a group of elements from solid and semi-solid samples according to the Randall technique.
- Solvent Extraction is used for determination of different substances present in products related to agriculture, industry or in environmental samples.
- Used to official methods, for determining fats, ten sides, plasticizers and pesticides on many matrices, including food and feed samples, detergents, rubber and plastic formulates, and many others.
- Number of samples: 6 positions
- Displays: 2 (working temperature I settable parameters)
- Reproducibility (RSD): Maximum 1%
- Solvent recovery: from 50 to 75%
- Max volume extraction cup: 150 ml
- Number of programs: 29

- Working temperature: from 100 to 260 °C
- Consumption:
- Cooling water: 2 L/min;
- Sample quantity: from 0.5 to 15 g;
- Solvent volume: from 30 ml to 100ml.
- Power supply: 220-240V, 50 Hz
- Dimension (Length x Width x Height): 700x620x390 mm
