

Product Name :
Soxhlet Extraction Mantles

Product Code :
NAAY-M55

Description :

Soxhlet Extraction Mantles - The mild steel body consists of a rectangular box housing the heaters and built-in controls. The flexible and elastic heating element ensure close contact with the flask and even distribution of heat over the entire surface, minimizing titling or breakage of glassware. Glasswool insulation is provided to minimize heat loss. Soxhlet extraction mantles are electrically operated at 230 Volts, AC, Single Phase, 50 Hz supply

Temperature is controlled by means of an Energy Regulator. Our standard model consists of 1 energy regulator and 1 indicating lamp for each heater. Models having a single energy regulator for all the heaters are also available.

Soxhlet Extraction Mantles are available for 100ml to 350ml flask sizes.
