

Product Name :
Static And Dynamic Balancing Apparatus for engineering schools

Product Code :
TML006

Description :

Static And Dynamic Balancing Apparatus for engineering schools

Technical Specification :

Static And Dynamic Balancing Apparatus, technical teaching equipment for engineering

Owing to our domain expertise and the assistance of a dedicated workforce, we are engaged in offering best quality **Static And Dynamic Balancing Apparatus** at the most affordable market price. Offered products are manufactured under strict supervision in accordance with the industry set norms and parameters. Appreciated for their sturdy construction, minimum electricity consumption and hassle-free operation, these products are highly demanded among the clients.

Specification:

- Electricity 0.5kW, 220V, Single Phase
