

Product Name :

Temperature Transducers Trainer for Instrumentation Electric Labs

Product Code :

ITT-TR-08

**Description :**

Temperature Transducers Trainer - Temperature Transducers Trainer - compact and user friendly learning platforms to provide a modern, portable, comprehensive and practical way to learn Technology. Each TechBook is provided with detailed Multimedia learning material which covers basic theory, step by step procedure to conduct the experiment and other useful information. Temperature Transducers play a very important role in today's industrial and domestic applications. Scientech Temperature Transducers TechBook is unique in design because it covers study of 4 different Temperature Transducers. Experiments covering fundamental characteristics of Transducers & study of Transducer controlled switching / alarm systems can be performed with this TechBook. 2302 comes with exhaustive learning material covering theory and experimental procedures for conducting experiments.

Easy to operate

On Board Digital Voltmeter

On board touch switch

4 different Temperature Transducers

Study of Transducer controlled switching / alarm systems

On board signal conditioning circuitry

Built-in DC Power Supply

Functional blocks indicated on-board Mimics

Exhaustive Learning Material
